a grand entrance

Medallion World is a leading manufacturer of the world's finest natural stone floor medallions, borders, accent tiles and accessories to make **every** entrance in your home or office *a grand entrance*.

Medallion World scouts the world for the finest marble, granite, onyx, limestone, and other beautiful stones to create truly unique and elegant floor medallions and accessories.

We combined our knowledge of natural stone with the skill of master craftsmen using innovative technology to produce works of breathtaking beauty at a fraction of the cost our competitors charge.

Medallion World is committed to bringing you the very best materials and unique designs. We continuously research industry trends to provide our Authorized Dealers the latest, most up to date products available anywhere.

frequently asked questions

What is a floor medallion?

Floor medallions are centerpieces of flooring design that can be made with various flooring materials including natural stone, wood, metal, tile, glass or a variety of other materials suitable for flooring. The pattern can be created using various methods such as mosaic, intarsia, or waterjet.

What is waterjet?

Waterjet cutting is a computerized technology that allows for the precision cutting of hard materials such as marble, travertine, granite, porcelain, glass and some metals. The process uses clear, cold water and a garnet abrasive pumped through a nozzle at ultra-high-pressure (40,000 psi) to carve complex cuts and beautifully intricate shapes while eliminating the break-offs, chipping, dust and other problems associated with other cutting methods.

Where can I buy Medallion World products?

You can buy Medallion World products from our Authorized Resellers around the world. Visit our website at www.medallionworld.com for an authorized dealer near you.

How do I become an Authorized Dealer?

If you are a dealer who would like to increase your revenue as well as to provide your customers with Medallion World products, please visit our website at www.medallionworld.com for details.

Where can I install a floor medallion?

A floor medallion can be installed anywhere in a home or office. Some of the most typical residential applications for medallions are foyers and entryways, master bathrooms, large kitchen and dining areas, pools, decks and powder rooms. Commercial applications include foyers, walkways, walls in reception rooms and large conference rooms.

How thick are the medallions?

Medallion World medallions are 3/8" thick. They are made to perfectly match our 3/8" standard tiles.

What are the best types of flooring to surround medallions?

Medallions can be surrounded by wood, ceramic tile, porcelain tile and virtually any natural stone used for flooring.

Are medallions suitable for heavy traffic areas? Are medallions scratch-resistant?

Yes. With proper installation and care, medallions are suitable for high foot traffic areas. Also, in normal use, medallions are not easily scratched. However, sharp objects forcefully rubbed against any stone surface can produce scratches.

How long will it take for me to receive my order?

Most orders ship the next business day, if not the same day (if in stock). All orders ship via UPS (unless otherwise specified by customer), Medallion World will email a tracking number to you once the order is shipped.

What if a piece breaks during shipment?

Our products ship with tested packaging, but in the rare case a product is damaged please notify us, and we will ship another. We ship all products with insurance via UPS or common carrier.
